New York Stock Market.

New York, May 2.—Governments dull and steady.

Stocks much more active, but trading was at the expense of prices. At the opening, there was little change from Saturday's closing, and in some cases sight advances were made in the first few minutes, but this was followed by a decided break among the most active stocks, which continued until 11 o'clock when the market was more quiet and prices comparatively steady. A remediate weakness was developed later, and the movement during the remainder of the afternoon was decidedly irregular, but activity and weakness went together. The active stocks were, as a rule, silos weaker. Eackswamns declined 2 per cent., St. Paul 194. Northwestern I and Omaha 36. The market closed generally weak, slightly better than the lowest figures of the day.

ALABASTINE

THE ONLY DURABLE WALL FINISH.

Please Read the Following Testimonial as to its Merits SALT LAKE CITY, February 6th, 1886.

GENTIERE. It gives me pleasure to comment on the superior work, we are now doing with the cement from Alabaster rock, called Alabastine. The effects produced by it are very brilliant in tuning, soon as Calciumining, Freecolus, etc. and I do commodentionally recommend the writche as being one of the best improvements ever offered to the

trade or public.

I can always afford to guarantee my work done with this material, so that I am fully satisfied with it, and would recommend it to all fullow workmen.

Respectfully.
